

# AI-JAM US

Competition for international AI innovation and research

## 2026 AI JAM - US AWARDEE LIST

| No. | Category         | Domain                     | Country                      | Project Title                                                             | Student                                                                       | Award  |
|-----|------------------|----------------------------|------------------------------|---------------------------------------------------------------------------|-------------------------------------------------------------------------------|--------|
| 1   | AI-invention     | Safety & Disaster          | United Kingdom               | Storm Prep List That Starts with Real Data                                | Harry Edwards                                                                 | Bronze |
| 2   | AI-application   | Water & Marine             | Indonesia                    | The Resilient Checklist for Household Water Waste                         | Rani Nugroho                                                                  | Bronze |
| 3   | AI-application   | Health & Wellness          | United Kingdom               | Medication Checklist That Starts with Real Data                           | Freddie Morgan                                                                | Gold   |
| 4   | AI-invention     | Smart City & Mobility      | Malaysia                     | What Comes After School Pickup Congestion?                                | Kavya Lee, Arjun Karim                                                        | Bronze |
| 5   | AI-research      | Environment                | South Korea                  | Tree-Health Snapshot for Jeju Coastal Cleanup Teams                       | Lee Yeon-woo, Hong Min-jun, Jung Yeon-woo                                     | Bronze |
| 6   | AI-invention     | Business & Commerce        | Vietnam                      | The Next-Step Engine for Manual Order Tracking                            | Ho Thao Vy, Le Quynh Anh                                                      | Gold   |
| 7   | AI-invention     | Smart City & Mobility      | Vietnam                      | Pickup Flow That Starts with Real Data                                    | Pham Gia Bao, Ngo Tuong Vy, Phan Tien Dat, Phan Hoang Nam                     | Gold   |
| 8   | AI-application   | Culture & Media            | United Arab Emirates (Dubai) | OrbitCraft: Turning Messy Inputs into Storytelling Kit                    | Ali Al Qasimi, Aya Al Maktoum, Khalid Al Kaabi, Lina Al Qasimi                | Silver |
| 9   | AI-application   | Education                  | Taiwan                       | PreLude AI — Where Your Music Journal Begins                              | Marissa (Mu-Jung) Lu                                                          | Gold   |
| 10  | AI-application   | Health & Wellness          | United Arab Emirates (Dubai) | PulseLoop: One-Screen Screen-Time Reset                                   | Zayed Al Maktoum                                                              | Bronze |
| 11  | AI-application   | Business & Commerce        | South Korea                  | The Quiet Checklist for Slow Follow-Ups                                   | Choi Si-woo                                                                   | Silver |
| 12  | AI-social-impact | Community & Public Service | Netherlands                  | Signals from Volunteers: Check-In Plan                                    | Noah De Vries, Mees Van den Berg, Finn Van Dijk, Milan Van Dijk               | Bronze |
| 13  | AI-research      | Environment                | Indonesia                    | WaveGuide Companion: Plastic-Risk Score                                   | Dewi Kurniawan, Intan Wijaya                                                  | Silver |
| 14  | AI-application   | Health & Wellness          | Japan                        | A Better Starting Point for Meal Planning                                 | Ren Hayashi, Kota Sasaki, Yuto Sasaki, Nanami Matsumoto, Yui Suzuki           | Silver |
| 15  | AI-application   | Business & Commerce        | South Korea                  | The Bridge Behind Better Customer Priority List                           | Baek Ye-jun, Shin Min-seo                                                     | Silver |
| 16  | AI-application   | Manufacturing & Robotics   | United States                | OrbitNest: A Working Guide to Small-Batch Scheduling                      | Harper Turner                                                                 | Bronze |
| 17  | AI-application   | Environment                | Indonesia                    | PlasticEye: AI Satellite Early Warning System for Ocean Plastic Pollution | Callysta Naura Aqilla Zafarany, Aziz Qomarul Firdaus, Octaviana Galuh Pratiwi | Bronze |
| 18  | AI-invention     | Environment                | Indonesia                    | AI SMART TREE                                                             | Ribka Adelina Lubis                                                           | Bronze |

| No. | Category         | Domain                     | Country                      | Project Title                                                        | Student                                                                          | Award  |
|-----|------------------|----------------------------|------------------------------|----------------------------------------------------------------------|----------------------------------------------------------------------------------|--------|
| 19  | AI-application   | Agriculture & Food         | Vietnam                      | Harvest Planning, Sorted                                             | Huynh Bao Chau, Ngo Quang Minh                                                   | Gold   |
| 20  | AI-application   | Safety & Disaster          | Saudi Arabia                 | A Local Guide to Household Risk Checks                               | Saud Al Mutairi, Dana Al Ghamdi                                                  | Bronze |
| 21  | AI-application   | Health & Wellness          | Japan                        | VerdeMap Companion: Medication Checklist                             | Ayaka Sato, Akari Kobayashi                                                      | Silver |
| 22  | AI-invention     | Safety & Disaster          | United States                | Before the Next Step: Crowd Flow Note for Wildfire Evacuation Groups | Lucas Young, Leah Price, Zoe Ward                                                | Silver |
| 23  | AI-invention     | Tourism & Hospitality      | Malaysia                     | FluxPulse: One-Screen Food Trail                                     | Haziq Lim, Amir Tan, Marcus Aziz                                                 | Bronze |
| 24  | AI-invention     | Environment                | South Korea                  | Municipal Teams: Practical Tree-Health Snapshot                      | Seo Hyun-woo, Hong Ye-jun                                                        | Bronze |
| 25  | AI-application   | Community & Public Service | Saudi Arabia                 | Volunteers: Practical Plain-Language Notice                          | Tala Al Zahrani, Yara Al Otaibi, Sara Al Amri, Nawaf Al Mutairi, Abeer Al Otaibi | Bronze |
| 26  | AI-research      | Healthcare                 | Indonesia                    | LukaLens by LukaHeal: AI-Powered Early Wound Risk Screening          | Callysta Naura Aqilla Zafarani, Aziz Qomarul Firdaus, Octaviana Galuh Pratiwi    | Bronze |
| 27  | AI-invention     | Smart City & Mobility      | Vietnam                      | Small Inputs, Clear Next Steps: Crowd Timing Suggestion              | Ho Ha My                                                                         | Bronze |
| 28  | AI-application   | Education                  | Sweden                       | Learning Blind Spots, Sorted                                         | Alice Andersson, Lilly Karlsson, Freja Berg                                      | Gold   |
| 29  | AI-research      | Education                  | Vietnam                      | The Steady Bridge: Concept Check for Teachers                        | Pham Linh Chi                                                                    | Bronze |
| 30  | AI-application   | Health & Wellness          | United Kingdom               | PebbleForge: Exercise Progress Log for Community Groups              | Freya Clarke, Oliver Hughes, Eliza Edwards, Eliza Morris                         | Silver |
| 31  | AI-application   | Accessibility & Inclusion  | United States                | Everyday Hearing-Friendly Checklist for Visitors                     | Ruby Hughes                                                                      | Bronze |
| 32  | AI-application   | Education                  | South Korea                  | RiverPatch: A Simple Path Through Group-Project Confusion            | Jeon Yu-na                                                                       | Gold   |
| 33  | AI-research      | Water & Marine             | Vietnam                      | Before the Next Step: Irrigation Loss Note for Farmers               | Vo Ngoc Mai                                                                      | Silver |
| 34  | AI-research      | Health & Wellness          | United Kingdom               | Where Sleep Routine Drift Becomes Action                             | Theo Clarke, Oliver Thompson, Poppy Cooper, Eliza Wilson                         | Gold   |
| 35  | AI-application   | Sports & Fitness           | Vietnam                      | School Teams Decision Desk                                           | Phan Huy Hoang, Vu Anh Thu, Dang Quynh Anh, Pham Hoang Nam                       | Silver |
| 36  | AI-social-impact | Accessibility & Inclusion  | South Korea                  | A Local Guide to Reading Accessibility                               | Lee Soo-ah, Shin So-yeon                                                         | Silver |
| 37  | AI-application   | Agriculture & Food         | Vietnam                      | BlueCircle: A Simple Path Through Freshness Checks                   | Tran Thanh An, Ho Bao Long                                                       | Bronze |
| 38  | AI-application   | Education                  | Saudi Arabia                 | Students Decision Desk                                               | Raghad Al Saud, Sara Al Subaie                                                   | Silver |
| 39  | AI-content       | Culture & Media            | United Arab Emirates (Dubai) | Storytelling Kit for Students                                        | Tariq Al Ketbi, Abdullah Al Qasimi                                               | Bronze |
| 40  | AI-application   | Business &                 | South Korea                  | CivicPatch: A Working Guide to Slow Follow-Ups                       | Han Yeon-woo.                                                                    | Gold   |

| No. | Category         | Domain                    | Country                      | Project Title                                              | Student                                                       | Award  |
|-----|------------------|---------------------------|------------------------------|------------------------------------------------------------|---------------------------------------------------------------|--------|
| 41  | AI-content       | Heritage & Language       | India                        | What Comes After Traditional Craft Documentation?          | Meera Singh                                                   | Gold   |
| 42  | AI-invention     | Smart City & Mobility     | Poland                       | A Human-Check Workflow for Traffic Reporting               | Franciszek Wisniewski                                         | Silver |
